

# Submarine Dismantling Project

Christine Bruce, Submarine Delivery Agency

Michael Donnington, Babcock Rosyth

Submarine  
Delivery Agency

The Submarine Dismantling Project aims to deliver a safe, secure and environmentally responsible solution for dismantling 27 of the UK's de-fuelled nuclear-powered submarines following their exit from service with the Royal Navy.

This presentation will provide an insight into the unique challenges faced by the project, including the perspectives of both the Client organisation and the Licensee. The presentation will also touch upon the interfaces with the wider UK decommissioning programme. Not one to be missed!

This meeting is kindly hosted by:

Worley Parsons  
5 Seaward Place  
G41 1HH  
(near Shields Road Subway Station)

Refreshments from 6pm (Talk starts at 6:30)
