

Nuclear Security Conference 2026

Sponsorship Opportunities

12 November 2026
London

Conference Overview

Organised by the Nuclear Institute Security Special Interest Group, the Nuclear Institute Security Conference returns for 2026, offering unparalleled access to top experts, with an emphasis on networking and technical knowledge sharing.

As 2025 we will be including the very successful early careers and apprenticeships session and adding even more networking and exhibition space with our return to the Institute of Physics.

You should attend if you are looking to connect with nuclear security professionals, learn about the latest developments from across the growing civil and defence nuclear sectors, and are keen to shape the future of nuclear security.

Why Sponsor?

Align your organisation with this conference which is a key event for nuclear security professionals to share knowledge, connect and meet new collaborators.

Sponsorship will raise your organisation's profile within this growing sector, with more opportunities this year to exhibit and connect directly with delegates.

New for 2026 is Student sponsorship - this provides one student/early career a place at the event enabling them to mix and build their network across the sector, along with attendance to further their knowledge and development. Members of the Nuclear Security SIG will host sponsor recipients, and will support their networking through the day.

Sponsorship Options

Platinum	£6,500
Evening Reception	£4,250
Gold	£3,950
Silver	£2,500
Keynote	£1,500
Exhibition	£795
