

Special Christmas Lecture

Making Virtual A Reality

Presented by: **Ben Nash, Trevor Chambers
and Friends** (Imperial College)

Evening Lecture: **Tuesday 18th December 2018**

Doors open from 17:30 for 18:00 start.

*Light refreshments including **Christmas punch** and **mince pies** to start the season*

Ridgeway House, Rutherford Appleton Laboratory, Harwell Campus, Didcot, OX11 0QX
(Opposite to Rutherford Appleton Laboratory)

Lecture Synopsis:

Come and join Ben and Trevor for an interactive lecture with a festive feel. Hear about the research, and have a go yourself at experiencing what Virtual Reality may have to offer the nuclear industry. Based upon the decommissioning of the Imperial College research reactor 'CONSORT', the lecture will focus on the research aims and the simulators developed to assist the decommissioning process, plus an update on the decommissioning itself.

An evening for the young and old alike. There's even the odd festive twist.
