

## Technical Tour

**Springfields, Westinghouse, Preston**

12 March 2020

Booking deadline: 12 February 2020

### TOUR OVERVIEW

The YGN are pleased to present our first event in 2020 for our popular Technical Tour series. We will be offering a limited number of young nuclear professionals the opportunity to attend a visit of Westinghouse Springfields site. Springfields manufacture oxide fuels for Advanced gas-cooled and Light Water Reactors, as well as uranium recovery and decommissioning services. Attendees will be able to learn about fuel production and the operations carried out, before touring the fabrication plant.

The event is free with preference given to NI YGN members should the tour reach capacity. Transport not included. Please contact [YGNTechnicalTours@nuclearinst.com](mailto:YGNTechnicalTours@nuclearinst.com) for more information and to book your place.

### Schedule

- 10:00 Welcome and talk from Westinghouse Managing Director
- 11:00 Fuel production technical talk from Chief Technical Officer
- 11:45 Lunch and networking
- 12:30 Tour of Oxide Fuel Manufacturing Facility
- 15:00 Depart site
