

Captain Philip Parvin

Captain Philip Parvin, CSO(E)SM, is responsible for the co-ordination of effective engineering and logistic support to the Fleet through the maintenance of effective working relationships with support authorities and PJHQ.

The Engineering elements of the Division are responsible for the management of safety (including Nuclear, H&S, EP, Fire Safety, Explosive Safety and Radiation Safety) across the Submarine domain.

CSO(E)SM is accountable to Assistant Chief of Naval Staff (Submarines) for upholding the Submarine input into engineering support and safety policy, and for consequent advice to the Fleet.
