

Technical Tour

Cammell Laird, Birkenhead

23rd August 2018

Booking deadline: 17th August

TOUR OVERVIEW

The YGN are pleased to present another event in our Technical Tour series. We will be offering a limited number of young nuclear professionals the opportunity to attend a site visit of Cammell Laird, the shipbuilding organisation who built and, earlier this year, successfully launched RRS Sir David Attenborough into the River Mersey. Delegates will be able to learn about the history of Cammell Laird and its leading capability in the marine sector as shipbuilding and ship repair specialists, as well as seeing first hand the Cammell Laird site.

The event is free with preference given to NI YGN members should the tour reach capacity. Transport not included. Please contact YGNTechnicalTours@nuclearinst.com for more information and to book your place.

Schedule

- 13:00 Welcome and overview of Cammell Laird
- 13:30 Tour of the site, including the 15,000 m² modular construction hall, the non-tidal wet basin for loading of structures too large for road transport, the Manufacturing Development Centre and, if time allows, the docks.
- 15:00 Depart site
