

The background features a complex geometric line art design. It consists of multiple overlapping squares and lines that form a series of nested, star-like patterns. The lines are primarily light red and light blue, with some darker red lines. The design is centered and spans across the middle of the page, overlapping the red and dark blue background sections.

FELLOWS

Why become a fellow?

Recognition of outstanding nuclear professionalism with post-nominal letters (FNucl)

Fellowship increases your value both to your company and to potential employers nationally and internationally – it's our top status in the nuclear sector in the UK. As a Fellow of the Nuclear Institute (FNucl), you're recognised as displaying exceptional professionalism and competence in your work in the nuclear sector.

Share your experience to shape to the industry

Write for the journal, sit on a committee, or help out with STEM activities – these are just some of the ways you can share your experience through the Nuclear Institute. Not only will you contribute to the future of the industry, but it looks great on the CV, too.

Expand your knowledge base with the Nuclear Future journal

Keep up to date with the industry through the bi-monthly Nuclear Future magazine. Sent to all full members of the Nuclear Institute, it's full of cutting edge, in-depth articles addressing issues and tackling challenges across the nuclear industry.

Mentoring and networking opportunities

You'll make contacts throughout the country with like-minded individuals working in nuclear through groups, events, and functions. Cultivate friendships with experienced, innovative nuclear professionals on the front line of science and technology, and help mentor enthusiastic, young people working in nuclear to develop their careers.

Keeping up with an evolving industry through specialised events

You're always learning in a career in nuclear as the industry continues to evolve and change with new discoveries – that's what makes it such an interesting industry to work in. Develop your skills and knowledge base through the industry-specific regional and national events the Nuclear Institute offers throughout the year.

Key benefits:

- Acknowledgement of exceptional professionalism in the nuclear sector with industry-recognised post-nominals (FNucl).
- Share and expand your knowledge through Nuclear Institute lectures, seminars, and technical tours
- Contribute to government consultations
- Discounts for all Nuclear Institute events
- Build contacts across the nuclear industry
- Join a community (Young Generation Network, Women in Nuclear, NI Branches, Special Interest Groups, etc)
- Receive the bi-monthly Nuclear Future journal

Apply online

To apply, go to our website www.nuclearinst.com/professional-member/fellow and complete the online form. You can pay the membership and annual fee through our secure online payment system – the fees are listed on the website.

Membership grades for each step of your career

There are four grades of membership for the Nuclear Institute – fellow, member, associate, and affiliate. These grades provide support at the various levels of your nuclear career through tailored events, networking opportunities, and professional recognition. For more information, please visit www.nuclearinst.com/membership.
