

Implementing Digital Innovation in a Nuclear Environment

#GoDigital2020

Gwen Parry-Jones OBE

Chief Executive Officer of Magnox Limited

Gwen Parry-Jones OBE started her career in 1989 as a reactor physicist at Magnox's Wylfa power station, before taking up several management positions at British Energy and then EDF Energy, in the UK and Canada.

In 2008 she became the Station Director of Heysham 1 power station and was the first woman in the UK to have run a nuclear power station...
