

Digital Transformation: Just enough information to understanding its importance for the nuclear industry

Presented by: **Mark Bankhead**
(Technologist, National Nuclear Laboratory)

Evening Lecture: Wednesday 27th November 2019

Doors open from 17:30 for 18:00 start. Refreshments and light buffet provided

Ridgeway House, Rutherford Appleton Laboratory, Harwell Campus, Didcot, OX11 0QX
(Opposite to Rutherford Appleton Laboratory)

Lecture Synopsis:

Digital Transformation is trending across multiple industry sectors. From high tech industries such as nuclear through to dynamic customer facing business in the retail and service sectors business are increasingly looking to technologies bracketed as 'digital' to give them a competitive edge. Many investments are simply being made on the fear of being left behind.

In this talk we will explore some of the top trending technologies behind digital transformation, we will cut through the hype and give a straightforward assessment on where some of these technologies stand. Just enough information so that perhaps better-informed decisions can be made on when or if we try these out on nuclear industrial problems.
